

The whole system, one canvas

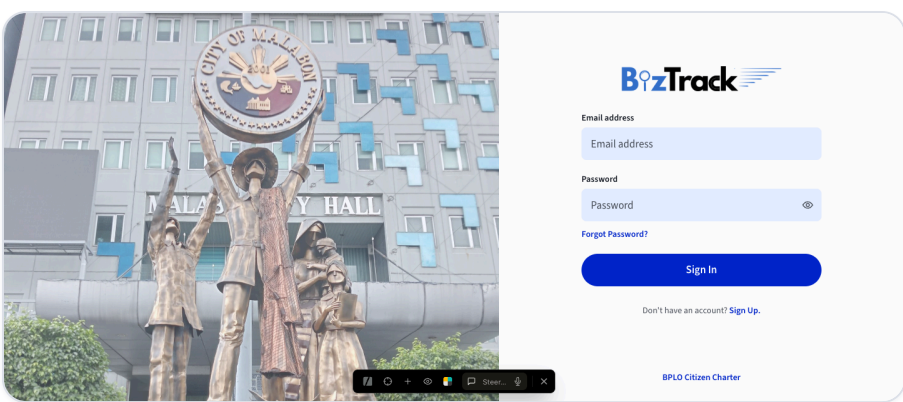

Every screen of the running application, arranged by the people who use it and the order the work flows. Built from live screenshots of the real app (React + Laravel). Follow the pipeline below; each swimlane holds that role's screens left-to-right in the order they're used.

■ Applicant (business owner) ■ Officer / department staff ■ Administrator ■ Public (no login)

Sign in

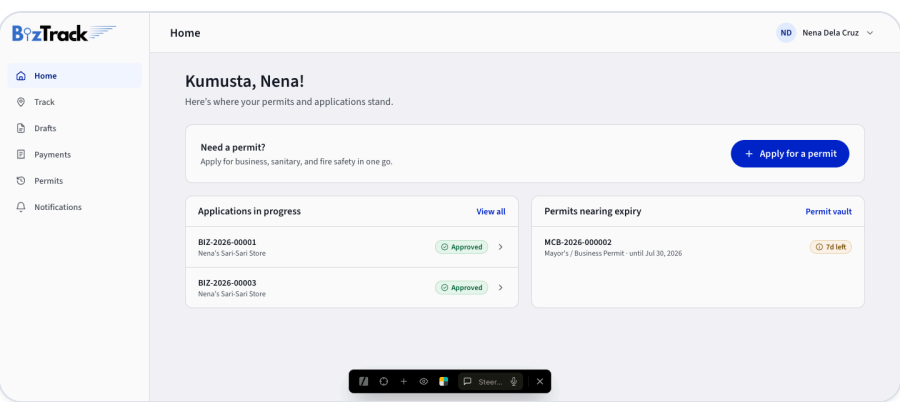

/login

Register with data-privacy consent; 5-try lockout on the API.

Home dashboard

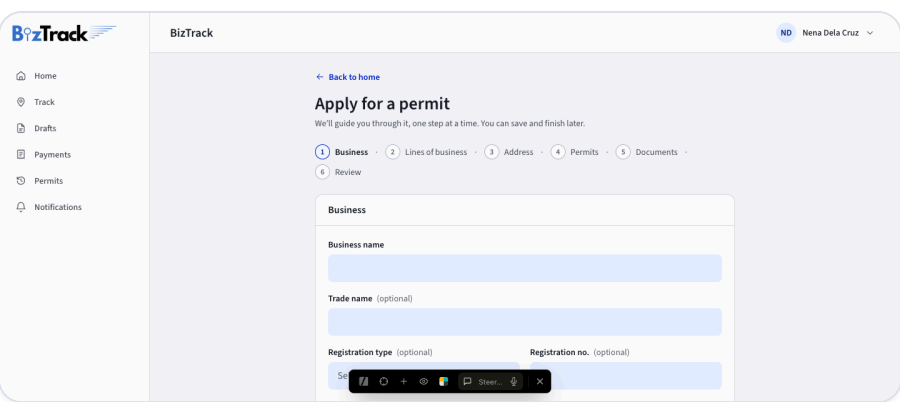

/dashboard

Applications in progress + permits nearing expiry, at a glance.

Apply wizard

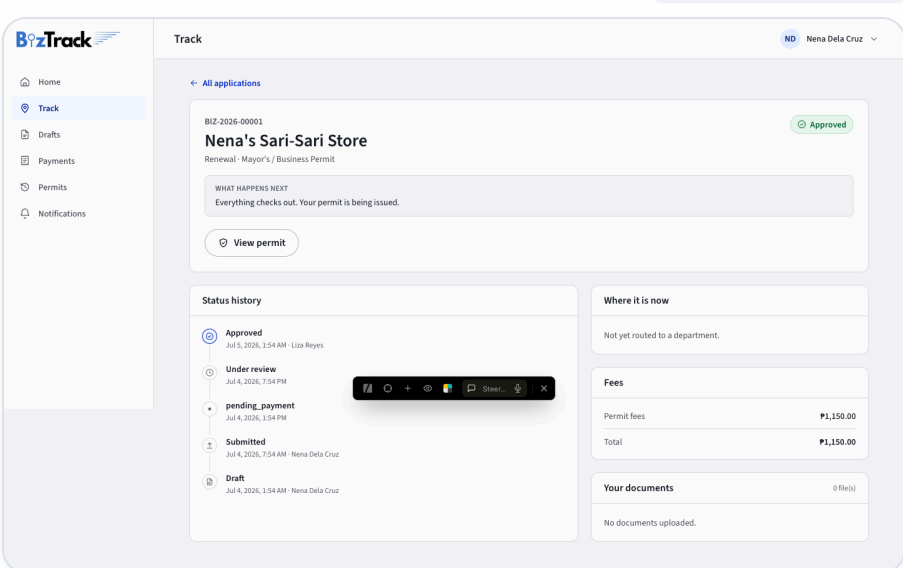

/apply

6 steps: business → PSIC lines → map pin → requirements → docs → review. Save-as-draft.

Track / timeline

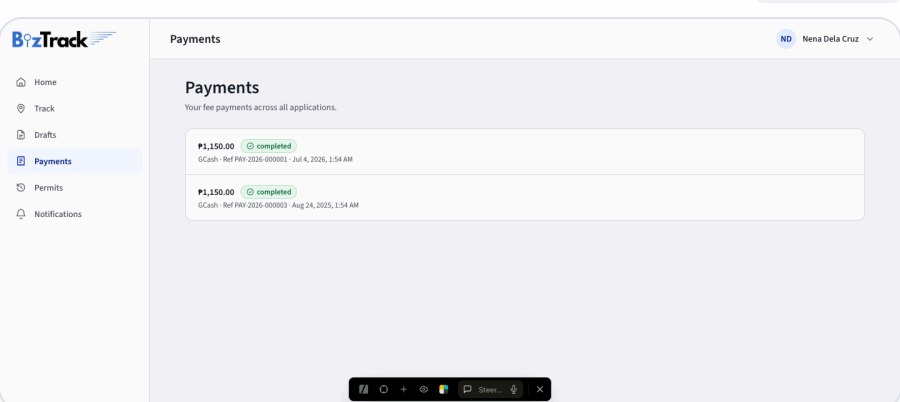

/applications/:id

Where is my application, who has it, what's next — the status timeline.

Payments

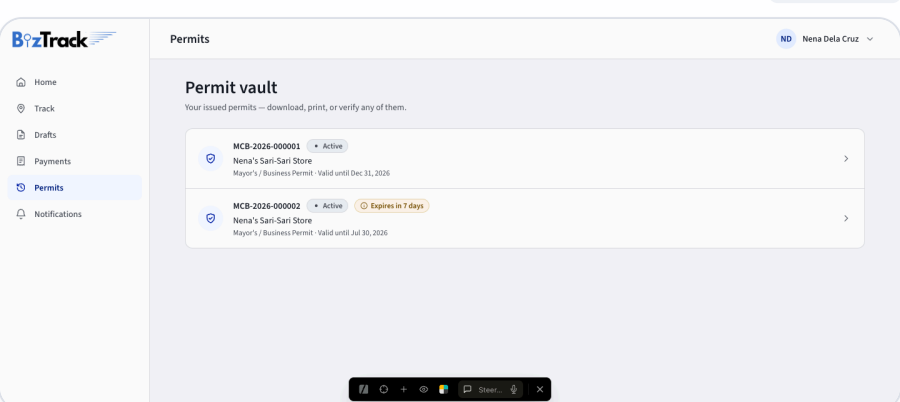

/payments

Simulated GCash / Maya / Card → PAY- reference + receipt.

Permit vault

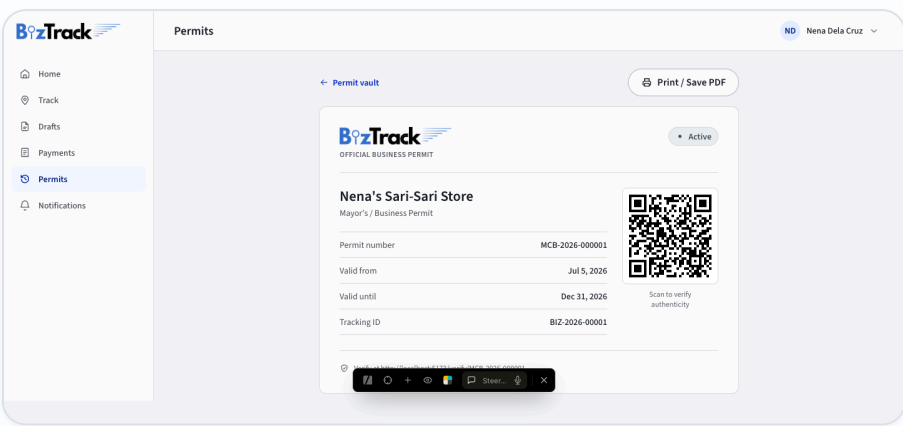

/permits

All issued permits with validity + expiry state.

Permit + QR

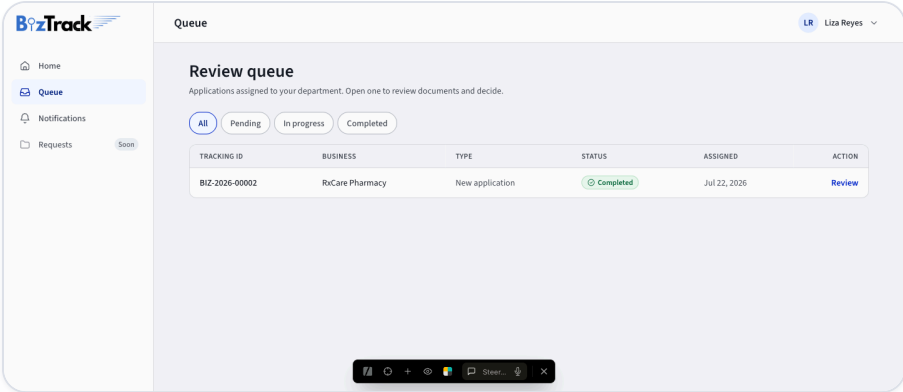

/permits/:id

Printable permit with a QR that resolves to the public verify page.

Review queue

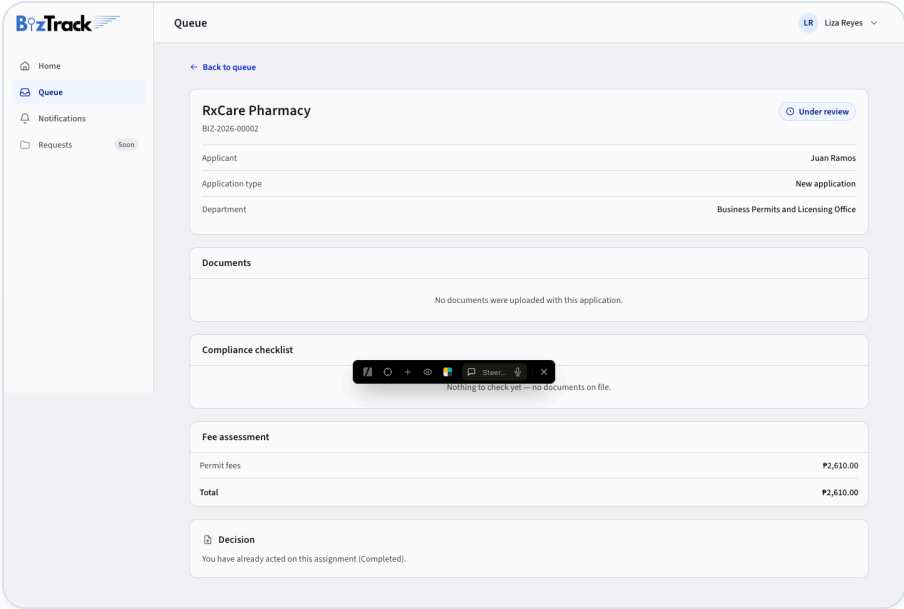

/queue

Only this department's assignments. Filter by status.

Review detail

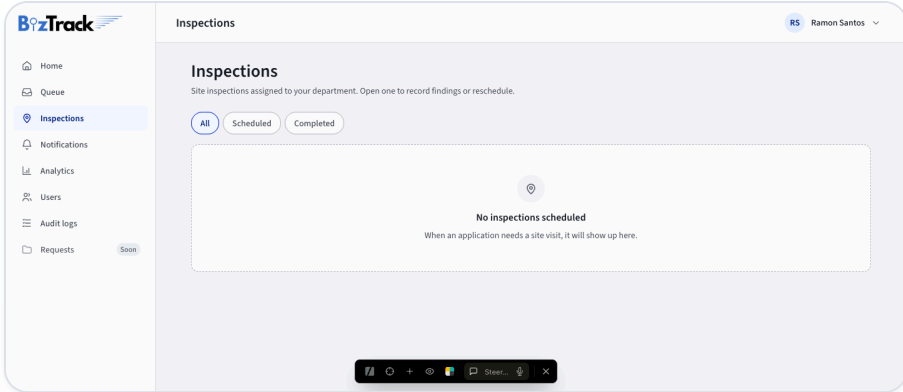

/queue/:id

Docs, compliance checklist, fee → Approve / Return / Reject.

Inspections

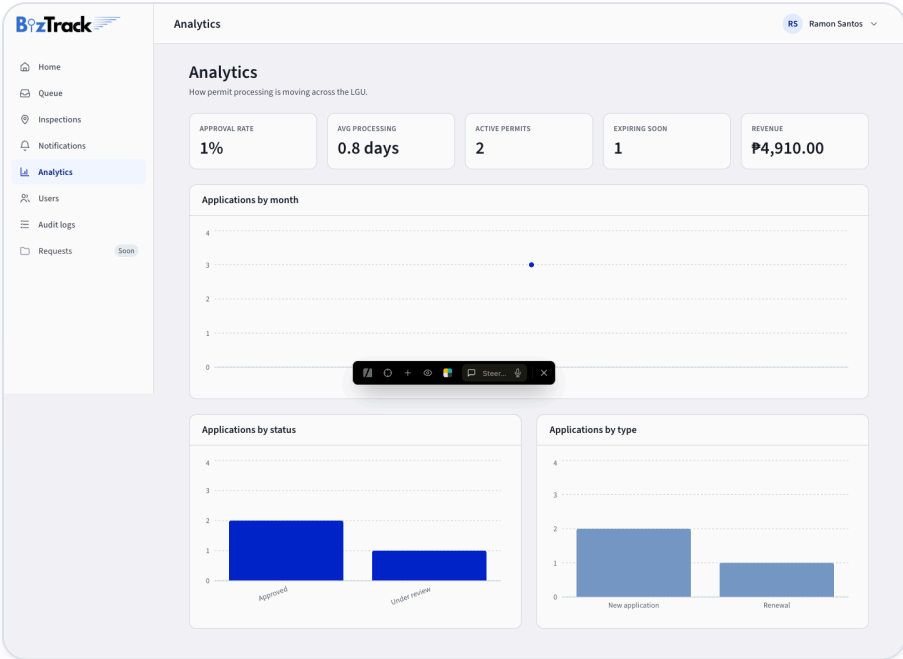

/inspections

Auto-scheduled per department; conduct pass / fail / conditional.

Analytics

/analytics

Approval rate, avg processing, active/expiring permits, revenue — SQL aggregates via Recharts.

Users & roles

/admin/users

NAME	EMAIL	ROLE	DEPARTMENT	STATUS	ACTION
Carlos Dion	sanitary@biztrack.local	Sanitary officer	City Health Office	Active	Deactivate
